

Maintaining Inventory of Gonorrhea Culture Media

Shipments of round and JEMBEC plates with GC- Lect media may be received monthly, weekly or biweekly, with the exception of drop shipments.

Drop shipments may be requested by calling the Laboratory Improvement Unit of the NC State Laboratory of Public Health (919)733-7186.

To make changes in orders for culture plates, call the Laboratory Improvement Unit of the NC State Laboratory of Public Health (919)733-7186.

Replacements for damaged plates should be requested from the Laboratory Improvement Unit of the NC State Laboratory of Public Health (919)733-7186.

Even if replacement plates are not needed, the LI Unit needs to be aware of the number of damaged plates.
