

## **Discrepant Hepatitis B Surface Antigen (HBsAg) Lab Results During Pregnancy**

In events where a mother has an original HBsAg positive lab result and then has a repeat HBsAg lab result that is negative or if initial hepatitis B test results are indeterminate, please contact the State Perinatal Hepatitis B coordinator at 919-707-5575 or [candy.graham@dhhs.nc.gov](mailto:candy.graham@dhhs.nc.gov) for further guidance.
