

PROTECT YOUR LOVED ONES

- Check in regularly with loved ones and neighbors, especially older adults, people with disabilities, pregnant people, people with underlying health conditions, people who live alone, and people without air-conditioning
- Help them find a cool place like a library, church or another neighbor's home
- Encourage them to drink water and stay hydrated
- Never leave children or pets alone in the car, even with the car running or windows open
- Know the signs of heat-related illness and call 911 if there is an emergency

STAY INFORMED!

Sign up for heat health alerts from NCDHHS and take extra care when there is a heat health alert.
