D. ADDITIONAL INFORMATION  
(Indicate by letter and number which topic the information supports)

C1. Site was not visited but was located on aerial photos.

C3. Aerial photos indicate that the mine is in a wooded area with no houses nearby.

**Directions to Mine:**

(From Conrad, 1963, p. 30)

This mine is located about 1.5 miles south of the Kilpatrick mine on the west side of Walnut Cove Creek. It can be reached by traveling on State Highway 281 for 3.7 miles north of its intersection with U.S. Highway 64. At this point an abandoned farm road turns southeast off of State Highway 281. The deposit is located at the end of this farm road about 0.75 mile east of State Highway 281.
